

Documents : Coenzymes et co-substrats:

L' ATP :

On peut simplifier l'ATP par :

Le NAD :

On peut simplifier NAD par :

Le FAD : (Dérivé de la riboflavine ou Vit. B2)

On peut simplifier FAD par :

Le TPP : Thiamine pyrophosphate (Dérivé de la thiamine ou Vit. B1)

On peut simplifier TPP par :

L'acide lipoïque :

Le Coenzyme A : (Dérivé de l'acide pantothénique ou Vit. B5)

→ On pourra simplifier le coenzyme A par :
